## Graduating Class of November 2018!!!!!!

Rodney Tyre

I'm originally from Saint Mary's, GA. I am a soon to be father, and I'm super excited for the birth of my Daughter. I love hanging out with my family in my free time. I also love to play a round of golf when I get the chance too.

I applied for CSOKI in 2013 and was ultimately turned down. I then started working for Alltel Wireless in Saint Mary's, until AT&T bought out the company in late 2013. I worked for AT&T for 3 years after that. When I found out that I was going to be a father I moved and started selling cars in Jesup, GA. When I saw an opportunity to apply for CSOKI again I did and was blessed with an opportunity to come on board!

I am most excited about the earning potential with CSOKI and the opportunity to change my life completely for the better!  
I am a flats guy! Flats all the way baby!

Levi Farmer

I'm Levi! I joined the cellular sales family because I'm too ambitious for any other career in the area. I'm excited to have the opportunity to provide an adventurous life for my kids and support their dreams. I'm more of a "flat" person, as I like the breast and thighs. ~Stay Humbled

Daniel Vasilauskis

I'm known as "V" or sweater from my training class. I'm from Chicago, Illinois. A little neighborhood called Bridgeport. Came to Georgia because Ol' Uncle Sam said hey you go here, was previously in the U.S. Army. Recently got out on a medical discharge and came across this opportunity when looking for a job. I applied then went through the process. Now here I am at the end and happy I chose this. Its such a big step up from what I'm used too. I like interacting with the people and the other reps every seems so easy going its awesome. I'm excited to start actually doing the job.

I'm more of a drum kinda guy. I need something to hold onto that I don't have to worry about getting in my way till all the chicken is gone. In the future I want to be about to be effective. I want to have constant numbers not just one lucky month ya' know. I wanna make all the money constantly.
